

If you enjoy low carb living and are seeking moderate weight loss, then the Be Lean 1000 program is the right program for you.

Be Lean 1000 is a scientifically formulated program designed to optimize your nutritional status and assist in maintaining muscle and a healthy metabolism whilst achieving moderate weight loss of between 1-2kg per week.

The meal plan contains 1000- 1200cal per day consisting of real, wholesome ingredients and contains no added sugar, low sodium and loads of healthy plant-based foods. We provide you with breakfast, and either a 2-course lunch or dinner and one protein based snack. Additionally, we provide you with an 'Allowed Extras List' that consists of a variety of nutritious (low-starch) vegetable and salad items, protein-based snacks and low-carb fruit options. This program is ideal to use for 4-12 weeks at a time and combined with Be Rapid for a metabolism reset every season for 1-2 weeks.

When you choose your meals from Be Fit Food, remember you can eat any dish on any day, at any time of the day. The nutritional value of all our meals are quite similar, therefore you can consume the meals in an order that works to suit your needs. Please note that the entrée dinner in the above example, can be moved to entrée lunch or even morning tea or afternoon tea.

Special tips from your BFF

Have a protein snack within 30 minutes after training to optimise recovery. Avoid skipping meals or snacks as this can increase your appetite later in the day and potentially lead to a greater consumption of calories during a later period. Remember, alcoholic drinks and milk-based coffees often contain hidden calories and significant carbohydrates that may inhibit your weight loss. Consuming these regularly may increase your appetite and your overall daily calorie intake, leading to unwanted weight gain. Having a splash of milk (approximately 30ml) in your coffee is fine, however if you do choose to have a small milk-based coffee, (<250mls) it will be considered as one of your daily protein snacks.

The science behind BE Fit Food requires you do not alter the diet to achieve the best results in weight loss.

**Note: This is a guide only. You can choose when to have your meals. All calorie intakes are accounted for daily, swapping meals around will not affect this. *The second meal does not have to be an entrée for dinner. If you would prefer an additional meal at lunchtime, these can be swapped. You can also choose to double up on the meals and turn it into one large meal, instead of having 2 smaller meals. Also your order may not contain the same items as those provided above, you will need to swap sample meals over to ones that you have actually ordered. Your second snack and side meals are not included in the Be Rapid Combo Box's, but can be ordered additionally. Alternatively you make these yourself, using the Allowed Extras List that we provide.*

Sample Side Dish Recipes ~50 calories

Rocket, Cherry Tomato and Parmesan Salad

(~50cal)

- 2 cups wild rocket leaves
- 1/2 cup cherry tomatoes, halved
